

“set yourself FREE”

belmondo

Belmondo is a new series of taps by Maurizio Duranti.

It is an interpretation inspired by 20's and 30's Design Vanguard. Through this project he wanted to go deep inside the culture of the period between the two World Wars, inspiring itself above all to Jean Puiforcat, French Artist and Designer who worked during those years.

Even if it reminds to sophisticated cultural atmosphere from that age, these objects are still deeply original and they don't concern with imitation styling.
