**ORA ITO**

Ora-Ito is a young french designer, who become known after showing his designs on his web portfolio, which embellished by Apple, Nike, Louis Vuitton logos created quite a confusion in design circles. Very soon people wanted to know where they can buy those products. When they found out, these big companies did not even think of suing the young designer, instead they started hiring him giving him some real job opportunities. And that's how Ora-Ito name became a brand, now his name signs products for brands like Adidas, Heineken, Joop, Artemide lamps, Capellini and Magis websites, Swatch watches, Gorenje, Davidoff packaging and even interiors like the one he designed for club The Cabaret in Paris. Today Ora-Ito is the symbol of modern changes: virtual turns into real, brand creates a product, and with time copy turns into original.

**ROVIRAS & TORRENTE**

AERI is a result of Altro's collaboration with the Barcelona design studio Roviras & Torrente industrial design, creating a totally new collection for the unique bathroom environment by using innovative materials and technology. The Aeri collection provides a new vision of different elements in the bathroom. This is as a result of professional investigation and a logical evolution of shapes, materials and applications. With Aeri, Paco Jaanson maintains its trajectory of innovation in the bathroom and are pleased to present this exciting new range which can suit a wide variety of users who are looking for something different in their bathroom.

**TOYO ITO**

Toyo Ito has designed for Paco Jaanson a complete bathroom collection that is based on the flowing of water. Toyo Ito is known for creating extreme conceptual architecture, in which he seeks to melt the physical and virtual worlds. He is a leading exponent of architecture that addresses issues of the contemporary notion of a 'simulated' city. Toyo Ito is considered "one of the world's most innovative and influential architects" (Designboom). "The difference that existed between interior and exterior architecture of the 20th century is disappearing. There should be no limits as the buildings should be part of the ambience which in turn should penetrate into the buildings."

**MASSIMILANO CICONI**

Massimiliano Cicconi was born in Civita Castellana in 1961 and he attended the "State school of Ceramic Art" in Civita Castellana where he was very interested in design and in ceramic traditions. In Civita Castellana he started to face the problems of ceramic materials concerning the important industrial centre of this town. He specialized in stage design at the "Academy of fine arts" in Rome and he started to teach artistic subjects. Then he worked as advisor with some designers offices in Rome and Civita Castellana. In 1997 he begun to cooperate with the companies of Colamedici group: Colavene, Colacril, Colbam. In 2000 he designed the series "Qube" for he company AXA and he has been the protagonist of "Shaping Ceramic" with numerous and different washbasins which can be matched to the "Qube" and with the series "Rond" characterized by flexibility

**MAURIZIO DURANTI**

Born in Florence in 1949, Maurizio Duranti lives actually in Milan since 1987, after he had been living for many years in Genoa, where he graduated in 1976. He indifferently attends to architectural planning, interior design and industrial design. He has been a teaching assistant at the Architectural Department of the University of Genoa and teacher at the European Institute for Design. Moreover he designs numerous commercial spaces, especially in houseware and gift articles sectors, some of which have been published several times in Italian and foreign magazines for their particularly innovative characteristics. He currently cooperates with various companies for which he has designed objects, furniture, lamps, tableware, etc. utilizing wood, metal, porcelain, glass, marble etc. "Understatement" Designer, he does not like excessiveness and his design tends to mediate tradition with contemporary values and indications.

FROM THE CREATORS

The bathroom is one of the most valuable rooms in a house along with the kitchen. A well designed and built bathroom will serve the needs of you and your household for years to come without looking dated or showing signs of age.

Although it's still essential that bathroom basics remain practical and purposeful, how your bathroom looks and the mood it inspires in you are now just as important as ever. Paco Jaanson understands this new bathroom concept. Our specially selected designers are able to deliver dream bathroomware that combine functionality with whatever form you desire. Specially trained in the latest technologies and trends, our designers contribution turn your vision into reality. Paco Jaansons bathroom indulgences, are first and foremost, about design solutions.

WELCOME

DIRETTORE GENERALE
John Gulbenkoglou

WELCOME

The once humble bathroom fulfils so many purposes these days: it's a cleansing zone, a personal sanctuary, a place of escape and relaxation.

OUR MOTTO

Our motto is that one perfect fitting can transform the ordinary into a private sanctuary that creates a palace for physical and emotional well being. Enjoy.

SPECIAL THANKS

Special thanks to those who believe in function transposed by form and the genuine feelings this creates. Relentless inspirations.

EFFETTI DI GRANDE EFFETTO

Elements that become elemental

I cultori dell'originalità non si lasceranno sfuggire i piani d'appoggio in ceramica decorata, con effetti grafici assolutamente inaspettati.

Il bagno diventa un'opera d'arte contemporanea.

Those who love originality won't want to miss these counter surfaces in decorative ceramic.

Completely unprecedented design elements turn the bathroom into a work of contemporary art.

BE AMAZED

Artist Alfredo Anzellini's "Strati di Senso" designs for our ceramic counter areas are a mark of absolute originality. Simple surfaces become a design feature, a true work of art, while pure aesthetic beauty combines with the practicality, resistance, and natural durability of ceramic.

INKA PROJECT

LASCIATI SORPRENDERE

Le opere "STRATI DI SENSO" dell'artista Alfredo Anzellini, applicate sui piani, ne esaltano l'originalità.

Il risultato è tutta un'altra ceramica.

Il piano d'appoggio si trasforma in un pezzo di design, in un'opera d'arte.

Una pura bellezza visiva che si aggiunge alle caratteristiche di praticità, resistenza e durata della ceramica.

3402 lavabo 60 . washbasin 60

Il lavabo a doppia vasca non è un lusso: è una piacevole comodità che semplifica la vita. A ognuno il suo spazio, per ridurre i tempi al mattino, per il piacere di ritrovarsi insieme in bagno: a lei il make-up, a lui il rasoio, e via verso una giornata piena di impegni.

The double-sink washbasin is no luxury item, it's a delightful way to simplify your life. Room for everyone means less time wasted in the morning and more time to spend enjoying one another: make-up for her, a shave for him, and then everyone's off to the start of another busy day.

VANGUARD

THE SEARCH FOR PERFECTION

TOYO ITO

La arquitectura de TOYO ITO es difícilmente asociable a una tendencia concreta, su búsqueda parte de una atenta observación del mundo. Su obsesión por la ligereza y la atracción que siente por el mundo orgánico la ha transmitido a los objetos para el espacio del baño.

La colección tiene como elemento principal una encimera realizada en Corian cuyo lavabo tiene la forma natural de la erosión del agua en la arena de la playa.

TIML01BL white tap mixer
TIML01CR chrome tap mixer

TILV03BLCR white basin 70x55cm without mirror groove
TIE02 round mirror w/white serigraphy 75cm diametre

It is difficult to associate the architect Toyo Ito to a specific trend, always observing the world for different ideas, his obsession for lightness and his fascination for the organic world has been transmitted to the bathroom.

The collection's main element is a top made by Corian of which the washbasin has the natural form of the erosion of water just like the sand at the sea. In the design of the mirrors, transparencies & fading concepts are used, which is something that Toyo Ito incorporates frequently in architecture.

The bathroom accessories and illumination allows us to travel to the geometric & cosmopolitan world. That urban and advanced touch, gives every day elements the required utility in the bathroom.

FUTURISTIC BATHROOM

INTEGRATIONS OF QUALITY

Based on an independent modular structure, it reinvents the distribution of the domestic space: a large cube is the room, with all the proper elements of a bathroom: faucets, furniture, and a column shower. Its rounded edges transmit continuity; all elements are part of this single unit.

This futuristic touch reminds you of the inside of a space ship.

Basado en un modulo independiente , reinventa la distribución del espacio domestico : así como el espacio baño es un cubo con todos los elementos propios , grifos, muebles y columna de ducha...sus redondeadas transmiten continuidad...todos los elementos forman parte de una unidad.

PASSIONATE BY HIS EXPERIENCE

Passionate by his experiences with home furniture, the designer has initially chosen the washbasin as the master piece to express the way he wanted to configure his bathroom. The washbasin is a single piece of resin in the shape of a P from the floor, with a mirror acting like its extension. The mirror comes with an anti-blur system as well as a touch lighting system. A second option, somewhat more minimal, includes a wall-mounted wash basin made of resin, with rounded and soft edges, but with smaller dimensions, along with a separate mirror.

PASSIONNE PAR SES EXPERIENCES

Empujado por su pasión hacia la decoración y muebles, el diseñador escogió el lavabo como pieza principal de su creación para el baño.

El lavaboes una pieza individual de resina con una silueta con forma de P desde el suelo..con un espejo que es prolongación natural.

El espejo tiene un sistema anti-vaho y un sistema "Touch Light".

La segunda opción, algo menos minimalista, incluye un lavabo a pared de resina, con angulos redondeados dulcemente, con unas dimensiones inferiores y un espejo a juego separado.

Design, for me personally is a mixture of everything, combined with lateral thinking and humour and, last but not least, realising that you have never "made it" and you are only as good as your next design.

Diseño, para mí personalmente es una mezcla de todo, combinado con el pensamiento lateral y el humor y, por último, pero no al menos, darse cuenta de que usted nunca ha "hecho" y usted es sólo tan bueno como su próximo diseño.

“Give a man a fish and he will eat for a day.
Teach a man to fish and he will eat for a lifetime.”

- Chinese Proverb

It's a well known proverb. And for good reason! Providing people and communities with the support, tools and training they require to work their way out of poverty and into self-sufficiency enables us to break the poverty cycle. That's where SEE Solutions comes in.

Your vital contribution will go towards SEE Solutions funded projects that may focus on farmer training to improve produce quality and yield, small loans to start-up new businesses, the formation of

cooperatives to unite and support producer groups, and finding new markets and ensuring fair prices. These activities provide individuals and communities with the greatest potential to overcome their economic challenges and enable them to create a sustainable means of living.

With your support, we can help liberate the working poor from the cycle of poverty with long term solutions. It's about providing a hand up, not a hand out.
